### Off shore obstacles

The following contains a listing of known off shore obstacles. For the purpose of this listing, an off shore obstacle is defined as an obstacle situated 2 km or more from the coast. Oil rigs in the North Sea are not included (See ENR 5.3).

It is not mandatory to report obstacles less than 100 m in height in Denmark, so obstacles may exist that are not included in this listing.

Aircrews noticing off shore obstacles not included on this list are encouraged to report the observations to MIL AIM, Air Command Denmark.
